Value Chain

INDUSTRY 4.0 TECHNOLOGY STRATEGIES FOR INTELLIGENT, SUSTAINABLE SUPPLY CHAINS

Join us to unpack some of the most critical supply chain challenges that our industry is facing today!

Will AI drive truly intelligent and collaborative supply chains?

Can E2E visibility platforms unlock new value for trading partners?

What are the advantages of de-carbonisation solutions to a sustainable transportation strategy?

Learn from the insights and experiences of leading service providers in these areas and engage in group discussions on how to harness the opportunities these technologies could provide.
