

CGF Forest Positive Coalition Introductory Deck

March 2024

About the CGF Forest Positive Coalition of Action

The CGF Forest Positive Coalition of Action (FPC) is comprised of member companies committed to moving efficiently and quickly towards a **forest positive future** and who understand the need to work collaboratively with multiple stakeholders.

The Coalition is focused on making progress through a combination of Coalition-wide Actions and delivering on **commodity-specific roadmaps for palm oil, soy, pulp, paper and packaging (PPP), and beef.**

The approach of the Coalition is based on a Theory of Change that builds on:

- Volumes sourced by members should be deforestation and conversion-free
- Suppliers implement forest positive commitments across their business
- Production landscapes transition to become forest positive

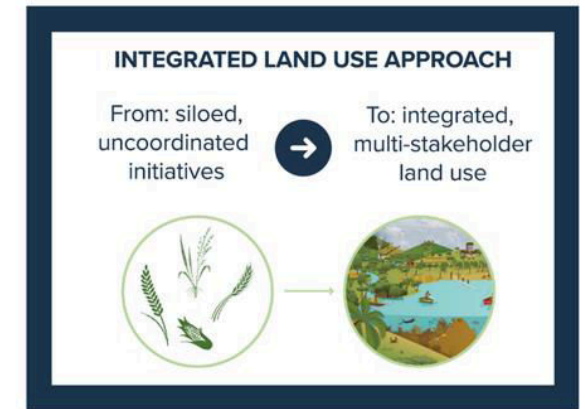

Deforestation Theory of Change

Together, we can create a #forestpositive future

Accelerating efforts to remove deforestation from commodity supply chains

+

Encouraging more transformational change in key commodity landscapes

About the Forest Positive Beef Roadmap

The Forest Positive Beef Working Group launched the **the Forest Positive Beef Roadmap** in 2022. Now, in March 2024, it has been updated (to v1.1) to reflect agreed guidance around the deforestation and conversion commitments on Element 1, which now has updated KPIs. The roadmap is made up of five Roadmap Elements.

- **Element 1: Managing Own Supply Chain**
- **Element 2: Engaging Suppliers and Meatpackers**
- **Element 3: Monitoring and Response**
- **Element 4: Engaging in Production Landscapes**
- **Element 5: Increasing Transparency and Accountability**

For each of these elements there are:

- The **commitments** of Coalition members
- Individual and collective **actions** to implement the commitments
- Public **information and KPIs** for aligned reporting by Coalition members

About the Guidance on the Forest Positive Beef Roadmap

The **Guidance on the Forest Positive Beef Roadmap** provides guidance on implementation across the five Roadmap Elements. It was published in 2023 and updated now in March 2024 (to v1.2). Main updates are to reflect the new KPIs on Element 1 of the Beef Roadmap.

Structure (one table per roadmap element):

- Introduction and antitrust
- Element 1: Managing Own Supply Chain
- Element 2: Engaging Suppliers and Meatpackers
- Element 3: Monitoring and Response
- Element 4: Engaging in Production Landscapes
- Element 5: Increasing Transparency and Accountability
- Annexes

Each table includes key actions, how to implement the action and key resources for guidance.

Element 5: Transparency and Accountability

Accelerating progress and building credibility through ongoing transparency and accountability is a central part of the Coalition's Forest Positive Approach. Coalition members have committed to reporting publicly on the agreed set of KPIs and public information requirements in the Beef Roadmap, at least annually.

Key actions	How to implement the action	Key resources for guidance
Report on the public information requirements and KPIs in Roadmap	<p>Publicly report on progress made in delivering on the forest positive deforestation- and conversion-free beef commitment and fulfilling the company's timebound action plan (see Element 1), using the KPIs specified in your company's timebound action plan, and the public information requirements and KPIs listed in the Beef Roadmap. Reporting should be at least annually and publicly available.</p> <p>The Beef Roadmap includes KPIs for:</p> <ul style="list-style-type: none">• Element 1: traceability, risk level and data on DCF volumes• Element 2: engagement with suppliers and meatpackers and their performance across their entire supply chain• Element 4: information on company's contribution to the mitigation of deforestation/conversion or to forest positive outcomes via support for landscape and jurisdictional initiatives <p>The Roadmap includes public reporting requirements for manufacturers, retailers and restaurants.</p> <p>Report on progress either individually (e.g., company website), and/or through platforms/initiatives (e.g. CDP).</p>	<p>See Annex 10 for a summary of the public reporting requirements in the Beef Roadmap v1.7</p> <p>See Annex 11 for detailed guidance on reporting on the public information requirements and KPIs for each Element of the Beef Roadmap</p> <p>A1: Operational Guidance on Reporting, Disclosure and Claims for specific guidance on reporting performance related to commitments</p> <p>Beef Toolkit Briefing Note 5 - Monitoring, verifying and reporting for how companies can monitor implementation of their commitments and suppliers' performance and report internally and externally</p> <p>CDP Forests 2022 Reporting Guidance</p>
