

MONDELEZ

Coalition member since 2020 | As of September 2025, palm oil (CPO and PKO), palm oil derivatives, direct soy, embedded soy, and pulp, paper and fibre-based packaging are material commodities for Mondelez International.

All numbers, figures, and values are approximate. Values greater than one (1) have been rounded up to the nearest whole number. Values less than one (1) are displayed with decimals.

Theory of Change | Halting deforestation and conversion and transforming key commodity sectors to forest positive.

At the heart of our work lies a comprehensive theory of change that guides our work towards a forest positive future. By recognising the interconnected challenges within commodity supply chains, we can drive meaningful change that not only protects our forests but also enhances the well-being of communities linked to production landscapes. Our approach emphasises collaboration with diverse stakeholders and a commitment to transparency, ensuring that we can effectively address deforestation and promote responsible practices. Through our collaborative efforts, we aim to transform our supply chains and create sustainable outcomes that resonate across the industry.

The following report includes information on this member company's performance reporting against each of our Forest Positive Coalition's Key Performance Indicators (KPIs), highlighting their progress in the three key areas that make up our Theory Of Change: DCF Supply, DCF Suppliers and Forest Positive Landscapes. For a full methodology on the Forest Positive Coalition's reporting process, including a list of all KPIs and public information requirements, visit <https://transparency.tcgfforestpositive.com>

DCF Supply | Element 1: Own Supply Chain

We have recommended targets to source DCF palm oil, soy, beef and PPP (paper, pulp and fibre-based packaging) alongside a people positive approach which promotes positive outcomes for the communities linked to production landscapes.

Commodity	KPI Number	% DCF publicly reported in 2025	DCF methodology	Scope of reporting
Palm Oil (CPO/PKO)	1.5	Did not report		
Palm Oil Derivatives	1.5	Did not report		
Direct Soy	1.8	Mondelez International intends to report DCF data for soy & PPP in our upcoming 2025 CDP disclosure. Due to the timelines involved, this data is anticipated to become available later this year		
Embedded Soy	1.8	Did not report		
Pulp, Paper and fibre based packaging	1.8	Mondelez International intends to report DCF data for soy & PPP in our upcoming 2025 CDP disclosure. Due to the timelines involved, this data is anticipated to become available later this year		
Beef and cattle derived products	1.6	Not material		

DCF Suppliers | Element 2

We support suppliers to transform their production of these key commodities to DCF in line with our members' commitment. Direct engagement in supply chains helps us understand where deforestation, conversion and human rights risks may occur so we can recommend actions to be taken by members to support improved supplier performance.

Commodity	KPI Numbers	Engaging suppliers on commodity	Tracking & reporting supplier performance & progress
Palm Oil (CPO/PKO)	2.2, 2.3	Yes	Yes
Palm Oil Derivatives	2.2, 2.3	No	No
Direct Soy	2.2, 2.3	No	No
Embedded Soy	2.2, 2.3	No	No
Pulp, Paper and fibre based packaging	2.3, 2.4	No	No
Beef and cattle derived products	2.3, 2.4	Not material	Not material

Forest Positive Landscapes

We address systemic issues in the 'production landscapes' of these commodities so they are transformed into forest positive areas. Strategic investment and collaboration will drive forest conservation, ecosystem restoration and improved livelihoods.

Commodity	Name of Landscape investing in	Location	Link to SourceUp page or alternative
Palm Oil	1) Coalition Sustainable Livelihood ; (2) LJI Langkat District , Indonesia; (3) Aceh LJI : district Aceh Selatan, Subussalam and North Aceh Collaboration across landscape, Snacking Made Right 2024	1) North Sumatra and Aceh, Indonesia (2) Langkat District, Indonesia (3) Aceh, Indonesia	1) https://www.mondelezinternational.com/assets/Snacking-Made-Right/SMR-Report/2024/2024-MDLZ-Snacking-Made-Right-ESG-Report.pdf 2) https://sourceup.org/initiatives/langkat-district 3) https://www.mondelezinternational.com/assets/Snacking-Made-Right/SMR-Report/2024/2024-MDLZ-Snacking-Made-Right-ESG-Report.pdf
Number of landscapes member is investing in		3	

The following table includes a list of each Key Performance Indicator (KPI) for each material commodity, along with the company's 2024 reporting record. The record includes the following responses:

- “Yes” indicates a company is reporting against a KPI and reporting quantitatively where indicated
- “Yes–narrative reporting” indicates a company is reporting qualitatively against a quantitative KPI
- “Not yet reporting” response indicates a company is not yet reporting on a KPI
- “N/A” indicates a KPI was not established in a given year

The DCF commodity methodologies are subject to updates based on commodity working group discussions and wider sectoral alignment. The 2025 reporting cycle is based on the following DCF methodology versions:

- Palm Oil DCF Methodology Version 0
- Soy DCF Methodology Version 1.1
- PPP DCF Methodology Version 0
- Beef DCF Methodology present in Roadmap Guidance version 1.3

This information has been self-reported by companies and verified by Proforest. Links are provided to information when a company is reporting (“Yes”) against a public information requirement, and when a company is reporting qualitatively (“Yes narrative reporting”) against a quantitative KPI. For a full methodology on the Forest Positive Coalition’s reporting process, including a list of all KPIs and public information requirements, visit <https://transparency.tcgfforestpositive.com>

If you have any questions about this report, please contact forestpositive@theconsumergoodsforum.com

SOY	Publicly reported value and method provided in 2024	Will your company be able to publicly report on this KPI by June 30th? (Select option from the dropdown)	Publicly reported value or narrative for 2025 reporting on 2024 data	Methodology for value reported	Scope (materials/products in-scope of the reported value, and proportion of total commodity volume that scope represents)	Link to publicly available source	Target (Optional)
SECTION A: Direct Soy							
1.0 - Element 1: Own Supply Chain							
1.1 - Policy commitments to the forest positive goals	not material	Yes	<p>Our goal is to seek no deforestation across our primary commodities following an approach starting with our European business in accordance with EU regulations and rolling out to our other regions by December 31, 2025, in accordance with SBTi guidance. The cutoff date is December 31, 2020, in accordance with EU regulations and SBTi guidance. This is the date after which deforestation is counted in a company's supply chain, meaning that products have to be produced on land that has not been subject to deforestation or forest degradation after 31 December 2020. In specific cases, e.g., where specific certification standards exist, we may apply cut-off dates set by the respective standard if those are the same or earlier in time.</p> <p>We also call on our suppliers to take efforts to end deforestation in their supply chains.</p> <p>For our direct purchases of soy, where we have much less influence across the sector as a whole, we take a due diligence approach designed to achieve more sustainable sourcing in our supply, based on the Consumer Goods Forum's sourcing guidelines.</p>	<p>Mondelez International intends to report DCF data for soy & PPP in our upcoming 2025 CDP disclosure. Due to the timelines involved, this data is anticipated to become available later this year</p>	<p>Scope includes materials directly purchased by Mondelez International.</p> <p>Scope may not include the following materials linked to small scale and/or complex supply chains where assessments continue:</p> <ul style="list-style-type: none"> > Derivatives referring to oil or oil fractions that have been chemically modified > Embedded commodities e.g. cattle fee <p>Note: Mergers & Acquisitions according to respective integration schedules.</p>	https://www.mondelezinternational.com/snackin-g-made-right/esg-topics/deforestation/	
1.2 - Timebound action plan summary		Yes	Mondelez's goal is to seek no deforestation across our primary commodities by December 31, 2025		See above		
1.3 - Soy footprint across all product categories		No					
1.4 - Methodology for soy footprint calculation		No					
1.5 - % of total commodity volume that is in scope of Element 1 reporting		No					
1.6 - % Traceable to at-risk origin (country or subnational) without further assurance of DCF status		No					
1.7 - % Unknown origins		No					
1.8 - % DCF supply and break-down into: • % DCF negligible risk origin • % DCF certified • % DCF monitored		No					
1.9 - Progressing towards DCF soy: a) Year on year change in DCF volume % b) Proportion (%) of soy volume in scope that is progressing towards DCF		No					
1.10 - OPTIONAL: % with no DCF solutions currently available		No					
Element 2: Suppliers & Traders							
2.1 - Direct supplier list		No					
2.5 - Summary of the Forest Positive Approach for suppliers and traders		Yes	This is provided within our Verification Protocol documentation, that is provided to all of our direct soy suppliers.			https://www.mondelezinternational.com/procurement/suppliers/policies-guidelines/	

SOY	Publicly reported value and method provided in 2024	Will your company be able to publicly report on this KPI by June 30th? (Select option from the dropdown)	Publicly reported value or narrative for 2025 reporting on 2024 data	Methodology for value reported	Scope (materials/products in-scope of the reported value, and proportion of total commodity volume that scope represents)	Link to publicly available source	Target (Optional)
2.2 - % of T1 suppliers to whom the Forest Positive Approach and its implementation have been communicated		No					
2.3 - Performance of Tier 1 suppliers against the elements of the Forest Positive Approach including progress on delivery across entire soy business		No					
4.0 - Element 4: Landscape engagement							
4.1 - Priority production landscapes identified		No					
4.2 - Methodology used to identify priority production landscapes to transform to forest positive		No					
4.3 - # of landscape initiatives currently engaged in		No					
4.4 - For each landscape initiative your company is currently engaged in, information on: a. Name, location, timeline and other partners involved b. Report on the initiative's goals and progress reflecting the indicators of the FPC's Landscape Reporting Framework c. Report on the maturity of the initiative (linked to the ISEAL Core Criteria for Mature Landscape Initiatives and the FPC's blueprint components)		No					
SECTION B: EMBEDDED SOY							
1.0 - Element 1: Own Supply Chain							
1.1 - Policy commitments to the forest positive goals		Yes	We take a due diligence approach designed with an aim to help us achieve more sustainable sourcing in our supply, inspired by the Consumer Goods Forum's sourcing guidelines.			https://www.mondelezinternational.com/snacking-made-right/esg-topics/deforestation/	
1.2 - Timebound action plan summary		No					
1.3 - Soy footprint across all product categories		No					
1.4 - Methodology for soy footprint calculation		No					
1.5 - % of total commodity volume that is in scope of Element 1 reporting		No					
1.6 - % Traceable to at-risk origin (country or subnational) without further assurance of DCF status		No					
1.7 - % Unknown origins		No					
1.8 - % DCF supply and break-down into: • % DCF negligible risk origin • % DCF certified • % DCF monitored		No					
1.9 - Progressing towards DCF soy: a) Year on year change in DCF volume % b) Proportion (%) of soybean equivalent volume in scope that is progressing towards DCF		No					
1.10 - OPTIONAL: % with no DCF solutions currently available		No					
2.0 - Element 2: Suppliers & Traders							
2.1 - Direct supplier list		No					
2.4 - List of identified major upstream suppliers		No					
2.5 - Summary of the Forest Positive Approach for suppliers and traders		No					
2.2 - % of T1 suppliers to whom the Forest Positive Approach and its implementation have been communicated		No					
2.3 - Performance of Tier 1 suppliers against the elements of the Forest Positive Approach including progress on delivery across entire soy business		No					
2.6 - Upstream suppliers/traders sourcing from at-risk origins that have been engaged (directly or via collective approach) and are being evaluated		No					
2.7 - Performance of upstream suppliers/traders against the elements of the Forest Positive Approach including progress on delivery across entire soy business		No

2.1 - Direct supplier list		Mill list published annually. Available on Mondelez website https://www.mondelezinternational.com/assets/Snacking-Made-Right/ESG-Topics/Palm-Oil/MDLZ-Palm-Oil-Mill-List.pdf	Yes	Mill list published annually	Mill list data collected via a Supplier survey on annual basis. Suppliers also provide 3rd party verification of the data where available. For Suppliers that don't have 3rd party verification, MDLZ contracted Control Union to verify this data.		https://www.mondelezinternational.com/assets/Snacking-Made-Right/ESG-Topics/Palm-Oil/MDLZ-Palm-Oil-Mill-List.pdf	
2.2 - % Direct suppliers engaged and informed of 'Forest Positive Suppliers' Commitment and 'Forest Positive Approach'		Narrative: SMR page 53, 54 "In our annual supplier KPI survey we request participating suppliers to identify "are you engaged in and informed about the CGF Forest Positive Suppliers Commitment and Forest Positive Approach either directly by MDLZ or indirectly by common platforms like CGF/POTC where MDLZ is active?" https://www.mondelezinternational.com/assets/Snacking-Made-Right/SMR-Report/2023/2023-MDLZ-Snacking-Made-Right-ESG-Report.pdf	Yes - Narrative	Direct suppliers linked to in-scope materials	Compliance with Mondelez deforestation free requirements, POAP and Verification protocol are required for all direct Suppliers. In our annual supplier KPI survey we request participating suppliers to identify "are you engaged in and informed about the CGF Forest Positive Suppliers Commitment and Forest Positive Approach either directly by MDLZ or indirectly by common platforms like CGF/POTC where MDLZ is active?"		https://www.mondelezinternational.com/procurement/suppliers/policies-guidelines/	
2.3 - Performance of direct suppliers against the elements of the Forest Positive Approach and changes over time including progress on delivery across entire palm oil business		100% - SMR report page 53, 54. 100% In our Annual supplier KPI survey we request participating suppliers to identify "Is your sustainability policy in compliance with MDLZ sustainability policy (Palm Oil Action Plan)?" https://www.mondelezinternational.com/assets/Snacking-Made-Right/SMR-Report/2023/2023-MDLZ-Snacking-Made-Right-ESG-Report.pdf	Yes - Quantitative	Palm oil from suppliers aligned to Palm Oil Action Plan (POAP) - 100 %	Data collected via a Supplier survey on annual basis. We request participating Suppliers to identify "Is your sustainability policy in compliance with Mondelez Palm oil action plan (POAP)?" KPI is publicly disclosed in MDLZ Annual ESG Snacking Made Right report (page 31). The KPI survey data is consolidated with supplied volumes to establish nominator. Total volume sourced forms the denominator	This data is based on supplier provided information. It excludes Mergers & acquisitions, palm oil purchased in the form of a component of other material, and palm oil procured by third-party external manufacturers & co-packers for use in manufacturing Mondelēz International finished goods.	https://www.mondelezinternational.com/assets/Snacking-Made-Right/SMR-Report/2024/2024-MDLZ-Snacking-Made-Right-ESG-Report.pdf	
3.0 - Element 3: Monitoring & Reporting								

PALM OIL	Publicly reported value and method provided in 2024	Will your company be able to publicly report on this KPI by June 30th? (Select option from the dropdown)	Publicly reported value or narrative for 2025 reporting on 2024 data	Methodology for value reported	Scope (materials/products in-scope of the reported value, and proportion of total commodity volume that scope represents)	Link to publicly available source	Target (Optional)
3.1 - Summary of company grievance process that aligns with FPC Deforestation Monitoring & Response Framework (MRF)	Grievance process. For increased visibility, we worked with Satelligence to design a grievance tracker that is connected to a satellite monitoring. The tracker provides an extended view of environmental grievances raised against suppliers within the monitored geographical scope https://www.mondelezinternational.com/assets/Procedural-Guidelines-for-Grievance-Management.pdf ; https://www.mondelezinternational.com/assets/Grievance-Procedure.pdf	Yes	MDLZ uses this grievance procedure to process, manage and respond to the grievance cases raised to us worldwide. The procedure's objectives are to be fair, objective, confidential, and action-driven. The concepts set forth herein apply to own operations and our value chain (i.e. involving suppliers as set forth). Appropriate actions are taken to address valid issues in a manner that upholds our commitments to people and planet. Grievance process for palm oil is in line with industry best practice, AFI and MRF frameworks. We are currently undergoing a grievance process benchmarking with Proforest to the process is up to date with latest industry needs. One of the results of the benchmarking will be a publicly disclosed grievance tracker, which is in planned to be released by end of the year.			https://www.mondelezinternational.com/assets/Grievance-Procedure.pdf	
3.2 - Summary of progress of grievance cases (e.g. in grievance log or relevant progress report(s))	did not report	No					
3.3 - % of supply base covered by deforestation & peat monitoring (including supplier and landscape monitoring systems) aligned with Monitoring Minimum Requirements	Nearly 97% traceable to forest monitored in our supply chain. https://www.mondelezinternational.com/assets/Snacking-Made-Right/SMR-Report/2023/2023-MDLZ-Snacking-Made-Right-ESG-Report.pdf	Yes - Quantitative	97%	In our annual survey we request our Tier 1 Suppliers to disclose what % of the supply chain is satellite monitored. The KPI survey data is consolidated with supplied volumes and % of satellite monitored to establish nominator. Total volume sourced forms the denominator. Mondelez is also working directly with a satellite monitoring provider and in 2024 we have extended monitored scope from geographies that were 88% of our supply chain to global monitoring across all geographies.	This data is based on supplier provided information. It excludes Mergers & acquisitions, palm oil purchased in the form of a component of other material, and palm oil procured by third-party external manufacturers & co-packers for use in manufacturing Mondelez International finished goods.	https://www.mondelezinternational.com/assets/Snacking-Made-Right/SMR-Report/2024/2024-MDLZ-Snacking-Made-Right-ESG-Report.pdf

3.4 - For coalition member companies involved, narrative summary of support provided to develop on the ground monitoring and response systems beyond own supply chains including landscape initiatives and sectoral collaborations	Since we account for only about 0.5% of global demand for palm oil, we recognize that we alone cannot advance a more sustainable supply. We therefore participate in a number of global organizations focused on supply chain improvements, including the Palm Oil Collaboration Group (POCG) and the RSPO. As a member of the CGF, we also co-chair the Palm Oil Working Group (POWG) of the FPC and the Human Rights Coalition (HRC). Forest Positive Coalition As part of the FPC, we set an ambitious roadmap for more sustainable palm oil, which includes the implementation of common supplier standards and a consistent approach to deforestation monitoring and response. Through our role within the coalition's POWG, we have worked toward aligning industry reporting methodologies, published guidance and collaborated with external stakeholders https://www.mondelezinternational.com/assets/Snacking-Made-Right/SMR-Report/2023/2023-MDLZ-Snacking-Made-Right-ESG-Report.pdf	Yes	We participate in a number of global organizations focused on supply chain improvements, including the Palm Oil Collaboration Group (POCG) and the RSPO. As a member of the CGF, we also co-chair the Palm Oil Working Group (POWG) of the FPC and the Human Rights Coalition (HRC). Forest Positive Coalition As part of the FPC, we set an ambitious roadmap for more sustainable palm oil, which includes the implementation of common supplier standards and a consistent approach to deforestation monitoring and response. 4.0 - Element 4: Landscape engagement							
4.1 - Priority production landscapes identified	We continue to invest in transformation toward forest positive production landscapes and are finalizing work on calculating our Malaysian and Indonesian production footprint through our partnerships with Satelligence and PCU. These production footprints can help inform future production landscape investments. SMR report page 53 - Priority landscape based on supply chain palm oil we source annually and forest footprint analysis https://www.mondelezinternational.com/assets/Snacking-Made-Right/SMR-Report/2023/2023-MDLZ-Snacking-Made-Right-ESG-Report.pdf	Yes	We continue to invest in transformation toward forest positive production landscapes and are finalizing work on calculating our Malaysian and Indonesian production footprint through our partnerships with Satelligence and CU and are expanding the approach to our Latin America sourcing countries. Mondelēz International continues to be committed to helping bring about large-scale change through investments in landscape programs in Indonesia and Malaysia that are centered on the production of sustainably sourced palm oil . Forest Positive Landscape, Snacking Made Right 2024 (page 30-31)	Priority production landscape are Indonesia, Malaysian , Latin America , based on Rainforest Alliance Network (RAN) Methodology		https://www.mondelezinternational.com/assets/Snacking-Made-Right/SMR-Report/2024/2024-MDLZ-Snacking-Made-Right-ESG-Report.pdf	
4.2 - Methodology used to identify priority production landscapes to transform to forest positive.	We plan to extend Mondelēz International's forest footprint and scale up our landscape initiatives in important palm areas based on the outcome of our forest footprint analysis. SMR report page 53 - Forest Footprint Analysis by Satelligence https://www.mondelezinternational.com/assets/Snacking-Made-Right/SMR-Report/2023/2023-MDLZ-Snacking-Made-Right-ESG-Report.pdf	Yes	We use Rainforest Alliance Network (RAN) methodology. These production footprints can help inform future production landscape investments. Forest Positive Landscape, Snacking Made Right 2024 (page 30)	RAN Methodology		https://www.mondelezinternational.com/assets/Snacking-Made-Right/SMR-Report/2024/2024-MDLZ-Snacking-Made-Right-ESG-Report.pdf	

PALM OIL	Publicly reported value and method provided in 2024	Will your company be able to publicly report on this KPI by June 30th? (Select option from the dropdown)	Publicly reported value or narrative for 2025 reporting on 2024 data	Methodology for value reported	Scope (materials/products in-scope of the reported value, and proportion of total commodity volume that scope represents)	Link to publicly available source	Target (Optional)
4.3 - # of landscape initiatives currently engaged in	3 landscape initiatives : (1) Coalition Sustainable Livelihood Aceh and North Sumatera ; (2) Sabah Landscape; (3) Langkat North Sumatera Sustainable Supply Chain Initiative SMR report page 54 - CGF FPC Landscape Reporting Framework https://www.mondelezinternational.com/assets/Snacking-Made-Right/SMR-Report/2023/2023-MDLZ-Snacking-Made-Right-ESG-Report.pdf	Yes - Narrative	3 landscape initiative currently engaged in : (1) Coalition Sustainable Livelihood ; (2) LJI Langkat District , Indonesia; (3) Aceh LJI : district Aceh Selatan, Subussalam and North Aceh Collaboration across landscape, Snacking Made Right 2024 (page 31)	CGF FPC Landscape Claim, CGF FPC Landscape Investment Toolkit		https://www.mondelezinternational.com/assets/Snacking-Made-Right/SMR-Report/2024/2024-MDLZ-Snacking-Made-Right-ESG-Report.pdf https://sourceup.org/initiatives/langkat-district	

PALM OIL	Publicly reported value and method provided in 2024	Will your company be able to publicly report on this KPI by June 30th? (Select option from the dropdown)	Publicly reported value or narrative for 2025 reporting on 2024 data	Methodology for value reported	Scope (materials/products in-scope of the reported value, and proportion of total commodity volume that scope represents)	Link to publicly available source	Target (Optional)
<p>4.4 - For each landscape initiative your company is currently engaged in, information on:</p> <p>a. Name, location, timeline and other partners involved</p> <p>b. Report on the initiative's goals and progress reflecting the indicators of the FPC's Landscape Reporting Framework</p> <p>c. Report on the maturity of the initiative (linked to the ISEAL Core Criteria for Mature Landscape Initiatives and the FPC's blueprint components)</p>	<p>Since 2021, we partnered with Conservation International and Coalition Sustainable Livelihood and together initiated an agroforestry study project in North Sumatra and Aceh. The project aims to enhance social agroforestry practices. It also seeks to guide future sustainable palm oil landscape investment. This initiative involves about 120 stakeholders spanning two priority landscapes. In the Malaysian state of Sabah, we have partnered with the WWF's global palm oil team to empower plantation stakeholders to assess High Conservation Value (HCV) areas, safeguard landscapes and promote responsible production. Since the end of 2023, we have invested in a new landscape initiative in Indonesia in partnership with the Sustainable Trade Initiative (IDH), PT Smart Tbk (a subsidiary of Golden Agri Resources, or GAR), and the North Sumatra Sustainable Supply Chain Initiative.</p> <p>SMR report page 54 - CGF FPC Landscape Reporting Framework https://www.mondelezinternational.com/assets/Snacking-Made-Right/SMR-Report/2023/2023-MDLZ-Snacking-Made-Right-ESG-Report.pdf</p>	Yes	<p>(1) Coalition Sustainable Livelihood, Aceh and North Sumatra in Indonesia, year 2018-2025, partner with Conservation International and Konservasi Indonesia, and collaborate with stakeholders include CSL members and local stakeholders. The 2023-2024 progress report and maturity include in SourceUp report, and the 2025 progress report design still discuss with IDH and SourceUp to have project dashboard encompass 4 districts and full LJI</p> <p>(2) LJI Langkat District, North Sumatra Indonesia, year 2023 - 2028, partners with IDH (Sustainable Trade Initiative) and PT Smart Tbk ; LJI goal to help protect the Leuser Ecosystem in North Sumatra (a subsidiary of Golden Agri Resources);</p> <p>The landscape initiative has made significant progress on the ground. The project has effectively mapped and assessed the conservation value of multiple mills and their supply chains, encompassing smallholder farms. Extensive training has been provided to smallholders on best practices, governance, and sustainability standards. These efforts have resulted in a significant number of smallholders becoming ready for RSPO ISH certification audits, with some already achieving certification. Furthermore, the initiative has facilitated the submission of numerous applications for local smallholder cultivation registration certificates (called Surat Tanda Daftar Budidaya, or STDB) and engaged with mills on NDPE plan establishment. Investments in training have also been made, demonstrating a strong commitment to fostering sustainability throughout the supply chain</p> <p>(3) LI Aceh Province : District North Aceh, Aceh Singkil and Subussalam, have started in 2025, partners with IDH and PT SMart Tbk (a subsidiary of Golden Agri Resources);</p> <p>Goal and Progress : The project will aim to support the strengthening of sustainable palm oil governance in the respective areas, which are part of the palm oil sourcing landscape that also host the biodiversity rich Leuser Ecosystem;</p> <p>We are working with SourceUp on SourceUp on dedicated LI dashboard that encompasses 4 districts (levelling structure from project to district to province Aceh Level)</p>	CGF FPC Landscape Claim, SourceUp		<p>https://www.mondelezinternational.com/assets/Snacking-Made-Right/SMR-Report/2024/2024-MDLZ-Snacking-Made-Right-ESG-Report.pdf</p> <p>https://sourceup.org/initiatives/langkat-district</p> <p>https://sourceup.org/initiatives/langkat-district</p>	

PPP (Pulp, paper and fibre-based packaging)	Publicly reported value and method provided in 2024	Will your company be able to publicly report on this KPI by June 30th? (Select option from the dropdown)	Publicly reported value or narrative for 2025 reporting on 2024 data	Methodology for value reported	Scope (materials/products in-scope of the reported value, and proportion of total commodity volume that scope represents)	Link to publicly available source	Target (Optional)
1.0 - Element 1: Own Supply Chain							
1.1 - PPP Sourcing Policy including commitment to the forest positive goals	not material	Yes	<p>Our goal is to seek no deforestation across our primary commodities following an approach starting with our European business in accordance with EU regulations and rolling out to our other regions by December 31, 2025, in accordance with SBTi guidance. The cutoff date is December 31, 2020, in accordance with EU regulations and SBTi guidance. This is the date after which deforestation is counted in a company's supply chain, meaning that products have to be produced on land that has not been subject to deforestation or forest degradation after 31 December 2020. In specific cases, e.g., where specific certification standards exist, we may apply cut-off dates set by the respective standard if those are the same or earlier in time.</p> <p>We also call on our suppliers to take efforts to end deforestation in their supply chains.</p> <p>For pulp and paper, as part of our position implementation and aligned with the Consumer Goods Forum Forest Positive Coalition (CGF FPC), we aim to leverage chain of custody certification programs to confirm that the paper-based packaging we use is free from deforestation.</p> <p>We support and encourage the sector-wide approach the Consumer Good Forum is pioneering for a forest positive future. One where suppliers adhere to consistent practices across their business models and land use is better optimized in a rights-respecting way across sectors with the support of producer governments.</p>	<p>Mondelez International intends to report DCF data for soy & PPP in our upcoming 2025 CDP disclosure. Due to the timelines involved, this data is anticipated to become available later this year</p>	<p>Scope includes fiber based materials classed as packaging directly purchased by Mondelez International.</p> <p>Scope may not include the following materials linked to small scale and/or complex supply chains where assessments continue:</p> <ul style="list-style-type: none"> - Paper and Board related to point of sale, stationary use and specialty items - Other specialty products (e.g. flavors, food additives etc.) <p>Note: Mergers & Acquisitions according to respective integration schedules.</p>	<p>Deforestation Mondelez International, Inc.; https://www.mondelezinternational.com/snacking-made-right/esg-topics/deforestation/</p>	
1.2 - Timebound action plan summary		Yes	<p>Mdlz goal is to seek no deforestation across our primary commodities by December 31, 2025. For pulp and paper, as part of our position implementation and aligned with the Consumer Goods Forum Forest Positive Coalition (CGF FPC), we aim to leverage chain of custody certification programs to confirm that the paper-based packaging we use is free from deforestation.</p>	N.A	See above	<p>https://www.mondelezinternational.com/assets/Snacking-Made-Right/SMR-Report/2024/2024-MDLZ-Snacking-Made-Right-ESG-Report.pdf#page=21</p> <p>https://www.mondelezinternational.com/assets/Snacking-Made-Right/SMR-Report/2024/2024-MDLZ-Snacking-Made-Right-ESG-Report.pdf#page=56</p>	
1.3 - % of total commodity volume that is in scope of Element 1 reporting		No					
1.4 - % recycled, % virgin fibre		No					
1.5 - % of virgin supply certified, and % per scheme and chain of custody model		No					
1.6 - % of virgin supply traceable to origin (at least to country of harvest)		No					
1.7 - % of supply from high priority sources		No					

PPP (Pulp, paper and fibre-based packaging)	Publicly reported value and method provided in 2024	Will your company be able to publicly report on this KPI by June 30th? (Select option from the dropdown)	Publicly reported value or narrative for 2025 reporting on 2024 data	Methodology for value reported	Scope (materials/products in-scope of the reported value, and proportion of total commodity volume that scope represents)	Link to publicly available source	Target (Optional)
1.8 - a) % Deforestation and Conversion free (DCF) volumes and breakdown into: • % DCF certified (disaggregated by certification scheme) • % DCF monitored (field/remote) b) % additional volumes from low-risk origins (volumes not already reported through the implementation options in metric a). c) % year on year change in DCF volume including narrative explanation		No					
1.9 - % volumes under engagement to progress towards DCF		No					
2.0 - Element 2: Suppliers & Traders							
2.1 - Direct supplier list		No					
2.2 - Proportion of suppliers informed about the Forest Positive Suppliers approach		No					
2.3 - Number or proportion of suppliers identified as priority for engagement, and % engaged		No					
2.4 - Performance of engaged suppliers and changes over time including progress on delivery across entire business		No					
4.0 - Element 4: Landscape engagement							
4.1 - Priority production landscapes identified		No					
4.2 - Methodology used to identify priority production landscapes to transform to forest positive		No					
4.3 - # of landscape initiatives currently engaged in		No					
4.4 - For each landscape initiative your company is currently engaged in, information on: a. Name, location, timeline and other partners involved b. Report on the initiative's goals and progress reflecting the indicators of the FPC's Landscape Reporting Framework c. Report on the maturity of the initiative (linked to the ISEAL Core Criteria for Mature Landscape Initiatives and the FPC's blueprint components)		No					

BEEF (and other cattle-derived products)	Publicly reported value and method provided in 2024	Will your company be able to publicly report on this KPI by June 30th? (Select option from the dropdown)	Publicly reported value or narrative for 2025 reporting on 2024 data	Methodology for value reported	Scope (materials/products in-scope of the reported value, and proportion of total commodity volume that scope represents)	Link to publicly available source	Target (Optional)
1.0 - Element 1: Own Supply Chain							
1.1 - Policy commitments to the FP goals	not material		not material				
1.2 - Timebound action plan summary							
1.3 - Beef footprint across all product categories							
1.4 - % of total commodity volume that is in scope of Element 1 reporting							
1.5 - % with known origin and per classification of origin							
1.6 - % Deforestation and Conversion free (DCF) volumes and breakdown as indicated							
a) % of cattle products purchased that are DCF and to what level upstream this has been ascertained							
b) % of cattle products purchased broken down into:							
• Volumes that are DCF due to negligible risk origins							
• Volumes that are DCF due to suppliers with DCF control mechanisms							
• Volumes that are DCF due to remote assessment							
c) Year on Year Change in % DCF							
1.7 - % progressing towards DCF							
2.0 - ELEMENT 2: SUPPLIER & MEATPACKERS							
2.1 - Supplier list							
2.2 - Summary of the Forest Positive Approach for meatpackers and own brand manufacturers							
2.3 - T1 suppliers to whom the Forest Positive Approach and its implementation have been communicated							
2.4 - Performance of T1 suppliers against Forest Positive Approach including progress on delivery across entire operations							
2.5 - Meatpackers sourcing from priority origins that have been engaged and are being evaluated							
2.6 - Performance of meatpackers against Forest Positive Approach including progress on delivery across entire operations							
4.0 - Element 4: Landscape engagement							
4.1 - Priority production landscapes identified							
4.2 - Methodology used to identify priority production landscapes to transform to forest positive							
4.3 - # of landscape initiatives currently engaged in							
4.4 - For each landscape initiative your company is currently engaged in, information on:							
a. Name, location, timeline and other partners involved							
b. Report on the initiative's goals and progress reflecting the indicators of the FPC's Landscape Reporting Framework							
c. Report on the maturity of the initiative (linked to the ISEAL Core Criteria for Mature Landscape Initiatives and the FPC's blueprint components)
