

What Migros Ticaret does against the Covid-19 virus:

- To minimize the contact during shopping, Migros Ticaret encourages Click & Collect service. Customers give their orders via the online shopping channels (web site or mobile app), make the payment online and get their packages from the stores in the neighborhood whenever they want.
- Migros Ticaret also widened the mobile payment option from self-service check-outs to all check-outs. Customers have the option to pay their shopping via their smart phones without touching the pos machine.
- According to the new regulation, using face mask during the shopping in stores become obligatory for customers. In addition, certain number of people can be at the store at the same time to ensure social distance and the proper number is identified in line with the square meter of the store.
